

Release Hook

L.A.B. offers electrically operated Release Hooks from 200 to 3,000 lb. capacity.

Release Hooks help determine the ability of a product or container to withstand impact loads which may be imposed upon such items during normal transit conditions.

L.A.B. Release Hooks meet all of the following primary International and Domestic Standards:

ISO (International) Std. 2248

ASTM (USA) Standard D-5276

ISTA (International) Standard Project 1. 1A, 2. 2A

Features:

- 200-pound to 3,000-pounds (91-kg to 1061-kg) capacity electrically operated release hooks
- Applicable for dropping loads of various configurations and dimensions.
- Includes foot activated drop switch
- Ruggedly constructed from solid steel and aluminum components.
- 13-foot cables from release hook to foot pedal
- Standard utility requirements: 115V/1Ø/60Hz

Model No.	Capacity
200ER	200 pounds
500ER	500 pounds
1000ER	1,000 pounds
3000ER	3,000 pounds
